TABLE A-I

AREA, HOUSES AND POPULATION

Volume III of the Census of India 1941, dealt with Bombay Province (including States) as constituted at the time of the 1941 Census. The number of units for which figures were given in the tables in the volume was 113.

During the decade 1941-51, many territorial changes affecting the boundaries of the various divisions and districts of the former Bombay Province took place. The States of Bombay, Saurashtra and Kutch as at present constituted were formed out of the following areas :—

State	Areas included in or excluded from
Bombay ...	The twenty districts of the former Province of Bombay, the former agencies of the Gujarat States and Deccan States, the Sabarkantha Agency (Banas and Sadra Divisions) of the former Western India States Agency, the former Indian States of Baroda, Idar, Radhanpur, Vijaynagar, Palanpur and Danta, Abu district and Abu Road and Dilwara Tehsils of the former Sirohi State, and the enclave villages of Rajasthan, Saurashtra and Hyderabad transferred to Bombay,
	less
	the enclave villages of Bombay transferred to Rajasthan, Saurashtra and Hyderabad.
Saurashtra ...	The former Western India States Agency excluding Sabarkantha Agency (Banas and Sadra Divisions) and the former Indian States of Idar, Radhanpur and Vijaynagar and Adhoi Mahal of the former Morvi State, and the enclave villages of Bombay transferred to Saurashtra,
	less
	the enclave villages of Saurashtra transferred to Bombay.
Kutch ...	The former Indian State of Kutch and Adhoi Mahal of the former Morvi State.

Within the State of Bombay the combined district of Broach and Panch Mahals was again split into its two component parts, and eight new districts were formed. The boundaries of most of the remaining districts were also enlarged, or otherwise affected because of the merger of the former Indian States and the transfer of enclave and other villages.

The result was that at the time of the 1951 Census, there were twenty-eight districts (treating Greater Bombay, which comprises the old Bombay City and the Bombay Suburban District as one district).

In the newly created State of Saurashtra, five districts were formed.

Kutch consisted of only one district.

Details about the constitution of districts are given at the beginning of the A-II Table.

In this and the subsequent tables, figures have been shown for natural divisions and districts in the States of Bombay, Saurashtra and Kutch.

The States of Saurashtra and Kutch constitute separate natural divisions by themselves.

Bombay State has been treated for census purposes as comprising the natural divisions shown below :—

Natural division	Names of districts included in the natural division
(1) Greater Bombay ...	Greater Bombay.
(2) Bombay Gujarat Division ...	Banaskantha, Sabarkantha, Mehsana, Ahmedabad, Kaira, Panch Mahals, Baroda, Broach, Surat and Amreli.
(3) Bombay Deccan Northern Division	West Khandesh, East Khandesh, Dangs, Nasik, Ahmednagar, Poona, Satara North, Satara South, Kolhapur and Sholapur.
(4) Bombay Deccan Southern Division	Belgaum, Bijapur and Dharwar.
(5) Bombay Konkan Division ...	Thana, Kolaba, Ratnagiri and Kanara.

The area figures for States, natural divisions and districts shown in this Table are those supplied by the Surveyor General of India.

The area figures shown in Table E (Summary Figures by Districts) are however those obtained from Collectors or from local records. There were frequently discrepancies between the Surveyor General's figure and the Collector's figure, with the result that area figures for districts given in this Table differ from those given in Table E.

The number of villages shown in column 3 of this Table is the number of revenue villages, excluding uninhabited villages, and villages which formed part of municipal areas. A hamlet was included in the main revenue village of which it formed a part.

The number of towns given in column 4 is the number of towns shown in Table A-V.

A town meant a municipal area, cantonment area or a place which had a population of 5,000 or more inhabitants and exhibited urban characteristics.

The following areas were treated as urban, although they were non-municipal areas with populations of less than 5,000 as the Collectors reported that they possessed urban characteristics :—

The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.

A house for census purposes meant "a dwelling with a separate main entrance". Thus more than one household might be found in the same census house.

The urban population at the time of the census in the State of Bombay was 11,170,340 and the urban/rural ratio was 5 : 11.

The urban population in Saurashtra at the time of the census was 1,393,161 and the urban/rural ratio was 1 : 2.

In Kutch, the urban population numbered 113,754 and the urban/rural ratio was 1 : 4.

TABLE A-II

VARIATION IN POPULATION DURING FIFTY YEARS

Consequent on the merger of the former Indian States, the transfer of enclave villages, the creation of the new States of Saurashtra and Kutch and the creation of some new districts, extensive district boundary changes occurred during the past decade (1941-51).

In 1941, the Province of Bombay as then constituted consisted of twenty districts. The former Indian States were grouped on a regional basis in the Western India States Agency, the Gujarat States Agency and the Deccan States Agency.

In 1945, the amalgamation of the old Broach and Panch Mahals District ended, and the two separate districts of Broach and Panch Mahals were created.

On the merger of the former Indian States and the creation of the States of Saurashtra and Kutch, the old Indian States agencies disappeared after 1947. The boundaries of almost all districts altered, and eight new districts were added to Bombay Province—

(1) Banaskantha
(2) Sabarkantha
(3) Mehsana
(4) Baroda
(5) Amreli
(6) Dangs
(7) Satara South and
(8) Kolhapur.

In 1950, Greater Bombay was formed by the merger of Bombay Suburban District with Bombay City for purposes of Municipal administration.

Therefore, at the time of the 1951 Census, there were 28 districts (treating Greater Bombay as one district) in Bombay State.

The State of Saurashtra was divided into five districts.

The whole of the State of Kutch constituted one district.

The eight newly created districts in Bombay were formed on the basis specified below :—

Banaskantha—This district was first created out of the former Indian States of Palanpur, Radhanpur, Wav, Tharad, Terwada, Thara, Virpur, Deodar and Varahi, and the old thanas of Varahi, Santalpur, Deodar including Suigam sub-thana and Kankrej.

Later Varahi and Santalpur States and thanas were transferred to Mehsana District and Abu District and Abu Road and Dilwara Tehsils of the former Sirohi State were added to this district.

Sabarkantha—This district was created out of the former Indian States of Vijaynagar, Idar, Ambliara and other states of the Sadra division of the former Western India States Agency, and Gadhwada thana.

Modasa Peta and Prantij Taluka of Ahmedabad District and some villages from Kaira, Panch Mahals and Mehsana Districts were added to it.

Most of the villages of the former Gadhwada thana were subsequently transferred from this district to Mehsana District.

Exchange of villages took place between this district and Banaskantha and Sabarkantha Districts.

One village from this district was transferred to Panch Mahals and four to Broach. One village of Panch Mahals District was added to it.

Amreli—This district comprises the Amreli and Okhamandal Districts of the former Baroda State and Ghogho Peta of Ahmedabad District.

There was an exchange of enclave villages between this district and districts in Saurashtra.

Dangs—The former Dangs States constitute the new Dangs District.

Four villages from this district were transferred to Surat District and three villages from Surat District were added to Dangs District.

Kolhapur—This district consists of 956 villages of the former Kolhapur State, five villages of the former Kurundwad State, one village of the former Miraj Senior State and seven villages of Belgaum District.

Satara South—The district consists of Tasgaon, Khanapur and Walva Taluka and Shirala Peta of the old Satara District and parts of the former Indian States of Aundh, Jath, Sangli, Miraj Senior, Miraj Junior and Wadi estates.

There were exchanges of some villages between this district on the one hand, and Kolhapur, Belgaum and Bijapur Districts on the other.

The district of *Kanara* alone out of the old districts of Bombay Province retained its former boundaries unaltered.

Greater Bombay Municipal Corporation was formed by the merger of Bombay Suburban District with Bombay City. Even prior to the merger of Bombay Suburban District with Bombay City, 33 villages from Bombay Suburban District had been transferred to Thana District.

In the case of the remaining districts, the main changes affecting their boundaries that took place during the past decade were as under :—

TABLE A-IV

TOWNS CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1901

This table gives the figures of population according to each of the past six censuses for all towns (including cities i.e. towns with populations exceeding 100,000) in the States of Bombay, Saurashtra and Kutch.

In general a town for census purposes meant a municipal area, cantonment area, or a place which had a population of 5,000 or more inhabitants, and exhibited urban characteristics.

No adjustments in the figures of population have been made for territorial changes in the case of any city or town except Greater Bombay Municipal Corporation and Poona City Municipal Corporation. The Greater Bombay Municipal Corporation was formed in 1950 by the inclusion of the former Bombay Suburban District in the municipal limits of the old Bombay City. The Poona City Municipal Corporation was formed by the merger of Poona City, the Poona Suburban Municipal area, and a few villages from Poona City Taluka, into a new unit called Poona City Municipal Corporation. Both these were cases of the merger of two sizable independent units, and not cases of minor expansions of municipal areas from census to census and hence adjustment of the figures has been necessary to present a coherent picture.

For exhibition in this table, towns have been classed according to population under six classes, as shown below :—

Class I— 100,000 and over

Class II— 50,000 to 100,000

Class III— 20,000 to 50,000

Class IV— 10,000 to 20,000

Class V— 5,000 to 10,000

Class VI— Less than 5,000

Note.—In case of districts in Saurashtra and Kutch, the slips of persons returning Kachchhi as their mother-tongue were not sorted separately, but were included in the slips of persons returning Gujarati as their mother-tongue. Therefore the figures for Gujarati given in the tables for Saurashtra and Kutch include those for Kachchhi. In order to arrive at an estimate of the Kachchhi speaking population, the 10 per cent. sample slips were resorted with the following results :—

Name of the District.	Number of persons in the sample population having Kachchhi as their mother-tongue.		Estimated number of persons in the total population having Kachchhi as their mother-tongue.

The total number of persons who returned non-tribal religions, other than the eight religions for which separate figures have been compiled and exhibited in the table, was 8,982 in Bombay State, and 36 in Saurashtra. There were no such cases in Kutch.

Among the persons classified under "Other Religions" in Bombay State, there were 2,553 males and 2,678 females for whom details of the religions they returned are not available, because the Tabulation Offices at Ahmednagar and Belgaum failed to record any details in respect of these cases.

TABLE E

SUMMARY FIGURES BY TALUKAS AND PETAS

This table gives the 1951 population figures by talukas and petas. The population has been exhibited according to its livelihood class composition. The 1941 population figures of the talukas and petas, the percentage variation in the population of these administrative units for each of the past two decades and the density per square mile according to the 1941 and the 1951 census have also been shown.

During the decade 1941–51, many changes affecting the boundaries of talukas and petas as well as districts in the States of Bombay, Saurashtra and Kutch took place. Column 6 of this table shows the figures of population in 1941 of the areas which on 1st March 1951 constituted the district, taluka or peta shown in column 1. The figures of percentage variation and density per square mile shown in the case of districts, talukas and petas relate to the areas that constituted these districts, talukas and petas on 1st March 1951. The rural-urban break-up of the 1941 population in column 6 of the table relate to those areas which were respectively rural or urban in 1941.

The area figures for districts, talukas and petas shown in column 2 of this table were obtained from the Collectors or the District Inspectors of Land Records or from local records. In the case of many districts the area figures shown in this table do not agree with the area figures shown in column 2 of the A-I table, which were supplied by the Surveyor General, India.

The area figures shown in column 2 of this table have been rounded off to the nearest integer, while the density figures shown in columns 9 and 10 were calculated on area figures correct up to one place of decimal.
